

SNiPerase-U™

A TILLING HETERODUPLEX CLEAVAGE ENZYME ACTIVITY OPTIMIZED FOR USE WITH UNLABELED PRIMERS

For TILLING with unlabeled primers

Priced at only \$395 for 1000 reactions, Frontier Genomics SNiPerase-U™ is the same reliable cleavage mix used in our TILLING-U kit™.

KEY BENEFITS

- Formulated for efficient cleavage of unlabeled TILLING fragments
- Incredibly cost-effective
- Increased stability over celery juice extract

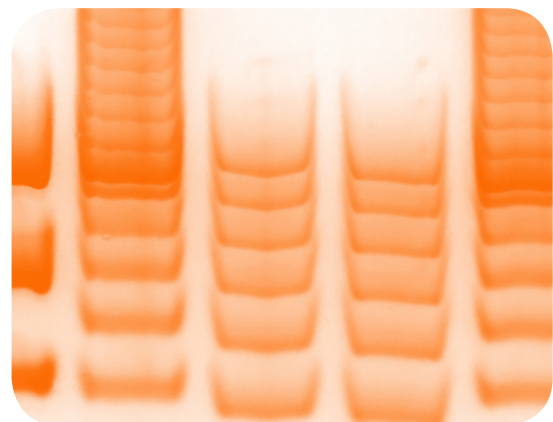

COST

SNiPerase-U™ provides great value and superior performance.

- \$395 for 1,000 reactions
- Discounts and custom packaging available for bulk orders
- Please contact us for more information

CONTENTS

- SNiPerase-U™ nucleases
- 2X Reaction Buffer
